## TO SANCTION A TOURNAMENT

Adopted February 5, 2020

<https://www.maha.org>

You will need to be signed into your personal Sportsengine Account. Sometimes if you don't log yourself out you may already be logged in. You are clicking that you are registering yourself & then it will take you through the steps below where you put everything under IRHA.

-click on Tournaments which you will see along the top of the page.

-from the drop down box click on Host a Tournament

-at the bottom of the page click on Register Tournament/Application

-click Continue

-Fill in Tournament information & keep going through each page (there are several)

-import the rules (have saved on computer in a pdf or word doc)

-click submit

You will get an email stating the application has been received. You will then get a second email stating the tournament has been approved & the sanction number. You need the sanction number for any advertising that will be done for the tournament & for your registration information on SportsEngine.

If you run into any issues with the sanction you can reach out to Bob Yohe of MAHA by texting him at 906-360-6021
